

Martyna Smolarek

Frontend Developer | React · TypeScript · NextJS

Experience

Web Developer

FeverUp | Jan 2024 - Present | Madrid, Spain

- **CMS Development & Maintenance** - developing, maintaining and refactoring modules in Payload CMS and Decap CMS, adding new features, fixing bugs, and supporting CMS migration
- **AI Process Enablement** - leading the adoption of AI-powered workflows by creating automations, migration tools, reusable prompts and team resources that improve day-to-day efficiency
- **Automations & integrations** - building integrations and workflows with Airtable, Formspree, Zoho and internal platforms to streamline lead management and business processes
- **Code quality & technical support** - troubleshooting complex issues, performing code reviews, writing tests, maintaining clean and reliable code, and providing technical guidance across projects
- **Cross-functional collaboration in a start-up environment** - working closely with design, marketing and development teams, self-managing priorities and contributing across multiple projects in a fast-paced environment
- **Recruitment** - conducting technical interviews and evaluating frontend candidates
- **Collaboration with major clients** - delivering solutions for clients including Toyota, Formula 1 Spain GP, LIV Golf
- **Designing & developing web pages** - building experience pages from Figma designs using AstroJS, Svelte and SCSS

Web Designer & Junior Project Manager

Le Guide Noir | Mar 2021 - Nov 2023 | Madrid, Spain

- **Design and develop web elements** - Popups, newsletters; increase opt in leads, revenue and engagement of users of clients' sites;
- **Working directly with clients** - organising timelines, tasks and deliveries
- **Analysing obtained data** - working with Google Analytics and creating Google Looker dashboards to analyse results in order to propose improvements in ongoing campaigns

Projects

Toyota x SMN Roadtrip - AstroJS, Svelte, Google Maps

- Bringing Figma design to life, a website for Toyota & Secret Media Network collaboration, using interactive Google Maps markers

Formula 1 GP España - AstroJS Template, SCSS

- Delivered the Formula 1 Spanish GP ticketing platform in a fast-paced environment, collaborating across teams to meet tight deadlines

Daniel Sniezynski Business Site - JS, Tailwind

- Freelance website created for a local business offering custom furniture and wooden terrace services.

Workshops & Hackatons

Cursor AI Workshop

- Collaborated with the Cursor AI team to evaluate new AI features and identify opportunities to improve team workflows

Fever Hackaton 2025 - AI Edition

- Collaborated in cross-functional teams on AI-driven initiatives and actively participated in internal creative coding events
